BACKGROUND

EMERALD COMMERCIAL LIMITED is a Non-Banking Finance Company (“NBFC”), holding a Certificate of Registration from the Reserve Bank of India (“RBI”). The company is non deposit accepting NBFC engaged in financial services. The Company has its registered office in and corporate office at Kolkata.

GLOBAL ECONOMY

The World Bank has forecast that India will continue to remain the fastest growing major economy in the world in 2019–19. In a report the World Bank said India’s Gross domestic Product (GDP) will grow at **7.3 per cent** during the ongoing financial year. This will further climb up to **7.5 per cent** in the next two financial years. The World Bank reasons that this is a result of increased consumption and investment. Besides, it says that the economy is regaining after a temporary slowdown due to demonetization and the implementation of GST.

These predictions have been made in a report prepared by the World Bank titled: ‘**Global Economic Prospects: Darkening Skies**’. The report says that most world economies stare at dark times in this financial year. However, it has projected a brighter picture for India and the South Asian region as a whole.

Meanwhile, growth among advanced economies is forecast to drop to 2 per cent this year. Slowing external demand, rising borrowing costs, and persistent policy uncertainties are expected to weigh on the outlook for emerging market and developing economies. Growth for this group is anticipated to hold steady at a weaker-than-expected **4.2** percent this year.

INDIAN ECONOMY

After growing at a robust 6.7% in FY 2017–18, the Indian economy achieve broad-based growth in the first three quarters of FY 2020–21, with industrial growth accelerating to 7.9%, services although services decelerated. Agriculture also posted strong growth of four per cent. The last quarter of FY 2019–19, however, has witnessed a slowdown in the growth of consumption indicators as well as a hiatus in business investment activity, as the nation awaits election results. Accordingly, Q4FY2021 is expected to see the weakest growth since mid-2017 and could come in at levels that are almost on par with China’s growth.

India’s foreign exchange reserves were US\$ 405.64 billion in the week up to March 15, 2020, according to data from the RBI. The World Bank (April, 2020) expects India’s GDP to accelerate moderately to 7.5% in FY 2021–22 due to sustained strengthening of investments, particularly by the private sector, an improvement in export performance and resilient consumption.

INDUSTRIAL STRUCTURE AND DEVELOPMENTS

NBFCs (Non Banking Financial Companies) play an important role in promoting inclusive growth in the country, by catering to the diverse financial needs of bank excluded customers. NBFCs do play a critical role in participating in the development of an economy by providing a fillip to transportation, employment generation and wealth creation, bank credit in rural segments and to support financially weaker sections of the society.

For the economy, credit delivery through NBFCs is superior for two levels of capital cushion, lower cost of last mile delivery and specialized underwriting and collection skills. NBFCs now account for more than one-third of incremental credit. This is not a small sector and plays a vital role in economy's growth and this sector is here to stay. NBFCs accounted for 23% of total loans and 18% of total credit in India as on 31st March, 2021.

But the latest regulatory crisis has been a wake-up call. People who have been trying to work on the edge in terms of liquidity or in terms of managing their cost of funds have got a wakeup call and hopefully some balance will be achieved.

The liquidity situation has improved significantly since the last fortnight of September, immediately following the IL&FS default. Availability of funds has improved, and the rate of interest has dropped. The scare of default by some NBFCs or HFCs (housing finance NSE 0.67 % companies) has now passed. It seems, the industry has been able to tide over the short-term liquidity crunch.

Regardless of recent panic and meltdown in the market values of NBFCs, they are here to stay and will play an important role in the economic growth and financial inclusion. In fact, as the economy becomes larger and grows faster, the need for credit will rise disproportionately. We need both banks and NBFCs to rise to the occasion and provide the economy with its lifeblood, i.e. credit.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2021 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
